-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3636

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Barile, Sr ('096).

Figures 1-5 show structure as claimed, including a rear support member 54 laterally disposed from the back support ends, a right and left front support member 74 extending laterally inwardly from the seat member, a planar spring member 14 and front and rear fixation plates overlying the spring member.

Claims 1,2,6,9,18,19 and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Ware.

Figures 1,4 and 5 show structure as claimed, including a rear support member 50 laterally disposed from the back support ends, a right and left front support member 34 extending laterally inwardly from the seat member, a planar spring member 52,54, and a lower frame cross member 38.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 7 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Barile.

To have provided removable seat and back cushions on the frame structure of Barile, would have been obvious to one with ordinary skill in the art.

Claims 10,12,13,16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ware.

Regarding claim 10, to have secured the rear support member of Ware to the ends of the frame by flanges, would have been obvious to one with ordinary skill in the art, as such is conventional and well known in the art.

Claims 4,5,11,14,15, and 20-22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Han and Fismen show various features of the invention.
